ACTIVITIES

I recently became a dad to a princess, full-time employed and I love enjoying time with family, friends and at work. On free time I research, study about software development and tech focusing on more certifications programs to complete and always curious on new creative ideas. I work out 45min 5 days/week/11295mints/year. My goal is to help build a safer web/technology service for the users, protect the people, and protect businesses.
